Cantilever racking

Shelving systems and
mezzanine systems

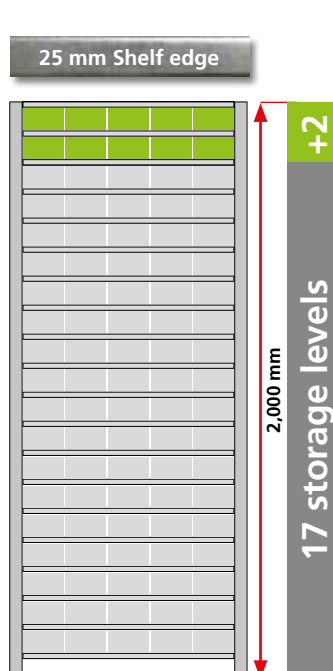

» More storage levels with same shelf height

- Increase in storage levels with the same rack height
- with over 10 shelf bays you save a whole shelf

17 storage levels
at 2,000 mm shelf height

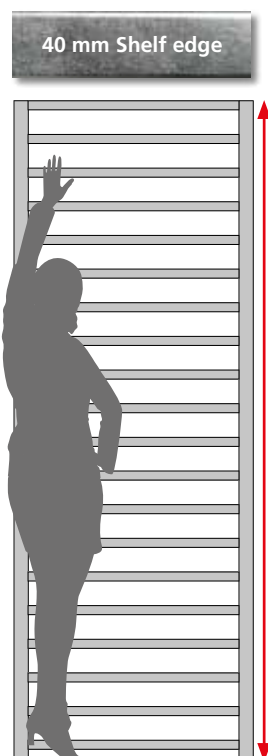

19 storage levels
at 2,000 mm shelf height

» Ergonomic operation due to lower overall height

- ergonomically advantageous operation due to optimised gripping heights
- shorter picking distances due to faster removal of the goods

2,300 mm Height
with 19 storage levels

2,000 mm Height
with 19 storage levels
